The congregation of St. John church were confronted with a genuine surprise Sunday morning last, when their pastor, Rev. A. R. Serrat, announced at the beginning of the service that he had decided to transfer to the Western Conference, from whence he came here. In making the announcement Mr. Serrat said that no other cause prompted him to take this action other than that he loved the mountainous country, around where he was reared and spent the greater part of his life, better than this section. He also said that he had been treated kindly and cordially received by all our people, whom he loved, and especially by the congregation he had served, but thought it best to make the change. He is a consecrated, christian gentleman, a faithful pastor, and is greatly admired by our people in general, and the charge he has served so faithfully are loath to part with him. He will remain here until Conference, which convenes at Wilson on the 29th inst., and then he will go to his new charge at Canton station in the Wayneville district.

THAT'S WHAT WE DO DO.

The Will of the Sovereign People Recorded For a Second Time In Favor of Prohibition: Let Those Who Would Seek to Thwart It Beware.

Some days ago the anti-prohibition "promoters" essayed to subordinate the progressive slogan of the ARGUS to

subserve their interests and scattered "gutter snipes" all over the city in advocacy of bar rooms bearing the head line "We Go Forward." The catchy headline, so familiar to all as identified with this paper, arrested the attention of every one under whose eye it fell and the circular was read with avidity and pondered deep and well. The people—the ARGUS has a stable and abiding faith in the people—and in the prayers of the noble womanhood of Goldsboro—the people studied that circular and then decided witherward they wished to go, and by their overwhelming vote to-day "against saloons" have recorded their decision—that WE GO FORWARD.

The vote has been full and the election has been orderly, and at the hour of going to press the Prohibition cause has of the vote already cast a good majority over the registered vote, and this majority will be increased before the polls close at sunset.

The result has never been in doubt. The hopes of the saloon advocates have been forlorn from the beginning, though cherished with a tenacity worthy of a better cause; but bitterness, we are happy to say, has been engendered by the agitation of the "dead issue," and the personal friendships heretofore existing between the differing cities on this question abide as of yore, and we can all work harmoniously, shoulder to shoulder, for a "Greater Goldsboro."

The ARGUS has said, based on its long experience, and its discriminating knowledge of the manner of this Goldsboro people—their mettle, character and dauntless go-forwardness—that bar rooms are closed forever in this town. Let those who have thought otherwise accept to-day's reiterated decision of a sovereign people as an ABIDING TRUTH, and if there be any in this community who may think to go contra to this now well established law, they had better take counsel of prudence and beware of the consequences of fostering "blind tigers."

Goldsboro is a prohibition town. The people have so decreed; and that same people's will MUST BE OBEYED—aye, RESPECTED.

Abrams, who some weeks ago went to New York to make his home with his children, who have taken up their residence there, died in that city on Saturday, and the remains, accompanied by his son Mr. Lacy Abrams, were brought to this city yesterday afternoon and interred beside those of his wife in the Hebrew plot in Willow Dale Cemetery.

Statesville Landmark.—It is stated that in nine months the American Tobacco Co., has paid 20 per cent dividend on the common stock, and that its earnings for some time past have been 40 per cent, per annum.

A contemporary complains that notwithstanding these large earnings the trust, by destroying competition, keeps down the price of leaf so that farmers can't make 4 per cent, growing leaf tobacco. Oh, well! Some of the beneficiaries of this monopoly give liberally to education and religious causes, and thus covers a multitude of sins, notwithstanding the concern which makes the money d-praises the price of leaf grown by the farmer and destroys competition in the sale of the manufactured product, and also puts on the market a product—cigarettes—which does as much, or more, harm to many boys and young men as whiskey.

Beautiful Marriage at St. John Church This Afternoon.

A most beautiful wedding was solemnized at St. John church this afternoon at 3 o'clock, the contracting parties being Mr. Thomas Eugene Land, of Newbern, to Miss Allie Letha, daughter of Mr. and Mrs. J. F. Tyson, of this city.

The church was delightfully decorated for the happy occasion, with evergreen, variegated ferns, and other beautiful plants, and presented a scene of exquisite loveliness that was indeed pleasing to the eye.

The organ was gracefully presided over by Miss Sallie Wrenn, who rendered Mendelssohn's wedding march, as the bride entered the church leading on the arm of her brother, Mr. Trent Tyson, and marched down the centre aisle, where they were met at the chancel by the groom, and amid the beautiful decorations, and standing under an arch of evergreen, the lives of the young couple were joined together in the sacred bonds of wedlock.

The solemn ceremony was performed in a most impressive manner by Rev. A. B. Serrat, and was witnessed by a large concourse of admiring friends.

The ushers were Messrs. D. W. Cobb, W. L. Summerlin, R. W. Woodard and John Raper; while Mr. Clarence Land, of Newbern, brother of the groom, acted as best man.

The bride is a most charming young lady of pleasing address and gentle disposition, and has hosts of friends among her wide circle of acquaintances, being for some months past a popular saleslady in the store of Mr. Jacob Cohen, and the fortunate groom is a popular young salesman of Newbern.

The many beautiful and costly presents which they received attest the highest esteem in which the young couple are held by their friends.

There is a dearth of news in this section, in fact, it is so dry here, that even the news has dried up, and if some relief is not afforded we will have to irrigate, if we continue playing the role of pencil pusher.

A hog is one of the best things a farmer can raise, just so long as he has an appetite for other things besides fried chicken. But when one once gets a taste of chicken, there is no cure but to shut him up in the smoke-house. We have one, in fact, two or three whose epicurean tastes are decidedly poultryfied, and not being ready for the gallows we have put them in an enclosure, covered, with fair notice to every dunghill on our ranch that all who enter here, leave hope behind.

A beautiful wedding was solemnized at the home of the bride's parents, Mr. and Mrs. Joseph Pearson, at Belknap, last Wednesday evening, the contracting parties being Mr. Luby Edwards and Miss Annie Pearson, Rev. H. E. Tripp officiating. The first to enter the parlor were two little flower girls, little Misses Evelyn Grant and Grace Worrick. Next came Mr. Albert Smith with Miss Bessie Swinson, Mr. Wade Caldwell with Miss Cora Dixon, Mr. Loren Pearson with Miss Allan Hooks, followed by the groom and his best man Mr. Tom Deans. Then came the bride with her sister, Miss Minnie Pearson, maid of honor, and under a beautiful arch of flowers, the vows were taken. LA GRIPPE—PNEUMONIA

So many people who have apparently recovered from an attack of La Grippe are stricken with Pneumonia. This is due to the fact that the Bronchial Tubes and Lungs are left weakened and unable to resist disease.

FOLEY'S HONEY AND TAR

not only cures La Grippe Coughs, and prevents Pneumonia, but strengthens the Lungs so they will not be susceptible to the development of serious lung troubles. Do not take chances with some unknown preparation that may contain some harmful drug when FOLEY'S HONEY AND TAR costs you no more and is safe and sure. Contains no opiates.

I had a bad case of La Grippe about ten years ago which left my Lungs so weak that I have been troubled more or less every winter since until I used FOLEY'S HONEY AND TAR, which cured me completely and my Lungs no longer trouble me.—J. H. BROWNING, D.D.S., Oriskany, Mo.

G. VACHER, 157 Osgood St., Chicago, says: "My wife had a very severe case of La Grippe, and it left her with a very bad cough. She tried a bottle of FOLEY'S HONEY AND TAR and it gave immediate relief."

The 50c bottles contain two and one-half times as much as the small size and the \$1.00 bottles almost six times as much.

John Doe X His Mark

A man's mark is his honor. It stands for him and he stands for it. It's the old Saxon way of signifying good intentions.

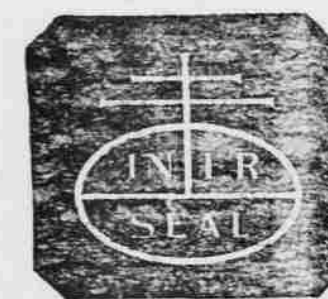

The right to be protected in the exclusive use of a trade mark has been long recognized by the common law and enforced by the chancery courts of England and this country.

The Government puts its mark on a bond to give it value.

The National Biscuit Company puts its trade mark in red and white on each end of a package of biscuit, crackers and wafers to distinguish these products and to guarantee the quality, and it does.

To more clearly comprehend the real value of this trade mark, try packages of BUTTER THIN BISCUIT and LEMON SNAPS.

Thanksgiving Day.

President Roosevelt has set apart Thursday, November 30, as a day of thanksgiving. Before the war the selection of Thanksgiving day was made by the governor of a state, and the governors in those days sometimes disagreed. Some selected the fourth Thursday of November, and some designated the third or fifth Thursday.

Since the war the governors have waited until the President named a day of Thanksgiving, and then they have issued, and still do issue, proclamations, conforming in the selection of a day to the presidential proclamation.

Some were surprised because the President did not this year select the fourth Thursday of November. Ordinarily the Fourth Thursday is the last Thursday of the month. About once in six years a fifth Thursday appears, and it is the infrequency of a fifth Thursday that causes people to expect the fourth Thursday to be named.

The entire matter is one of ostension, there being no law covering the subject, either in the states or in the country as a whole. So far as custom has crystallized it may be said to be in favor of naming the last Thursday in November, rather than the fourth Thursday. The President is free to act as he likes, and so for that matter may the governor of each state. The entire matter is voluntary and in accordance with an unwritten custom that is even less mandatory than unwritten law.
